

FieldSure 1/2

Enterprise Workforce Management & GPS Telemetry SaaS

DOCUMENT REF: FS-SPEC-2026-V2.4 | SECURITY: MULTI-TENANT ISOLATED | OWNER: SAVRDH TECHNOLOGIES

Complete SaaS Product Mockup Suite & Technical Architecture Specification

An integrated, multi-tenant enterprise field-force management SaaS engineered for transparent, consent-driven employee telemetry, client geofencing, multi-tier performance scoring, automated payroll CSV generation, and audited SaaS super-admin billing governance.

Employee PWA

- 1-Tap Duty Punch-In
- Permanent Tracking Banner
- Geofenced Client Visits
- Photo Proof & OCR Claims
- Offline IndexedDB Queue

Company Admin

- Google Maps Live Grid
- Route Breadcrumb Trace
- Attendance Master Register
- Shift Regularizations
- Automated Payroll CSV

Savrdh Super-Admin

- Tenant Provisioning
- Multi-Tier SaaS MRR
- 18% GST Invoicing
- 30-Min Impersonation
- Immutable Audit Stream

LEGAL & PRIVACY ARCHITECTURE GUARANTEE (INDIA DPDP ACT 2023)

- Location tracked strictly during active employee duty session with visible persistent indicator.
- Automatic GPS tracking termination immediately upon punch-out.
- Strict zero-access policy to employee personal WhatsApp, SMS, photo gallery, or browsing data.

Executive KPI & Operational Health Dashboard

Real-time operational health, field telemetry coverage, and automated expense pipelines across all company branches.

Total Onboarded

118 Officers

100% Verified Seats

Active Duty Today

86 Officers

72.8% Field Coverage

Client Visits Logged

68 Visits

94.1% Verified GPS

System Health Score

96.4 / 100

Optimal Field Performance

Today's Shift Attendance Distribution Register

CATEGORY / STATUS	COUNT	PERCENTAGE	STATUS NOTE / ACTION
Present & On-Field Duty	86 Officers	72.8%	GPS Stream Active (13.8m)
Late Punch-Ins (Regularization Pending)	6 Officers	5.1%	Traffic delays reported
Approved Casual & Sick Leaves	4 Officers	3.4%	HR approved in portal
Weekly Scheduled Off-Duty	18 Officers	15.3%	Roster rotation compliance
Unexcused Absent / No Punch	4 Officers	3.4%	Auto-flagged to Branch Manager

Expense Reimbursement Pipeline (August 2026)

Total Fuel Claims

28,450

38 Requests

Food & Daily Allowance

14,350

29 Requests

Approved & Disbursed

34,200

100% Verified Receipts

Audit Flagged (Distance Mismatch)

2,400

2 Under Investigation

Automated Fuel Calculation: Distance computed from verified GPS route breadcrumbs multiplied by fuel efficiency.

Anti-Fraud Engine: Discrepancies between submitted odometer photos and GPS odometer are flagged for manager review.

Company Admin Console & Google Maps Live Grid

Real-time field officer tracking, dynamic route breadcrumbs, battery monitoring, and visit validations.

Active Officer Dossier: Rahul Sharma

& Employee ID: AKBS-FLD-102 (Senior Farm Officer)

& Shift: General Field (09:00 - 18:00)

& Punch-In Time: 08:54 AM (Sector 18 Noida)

& Telemetry Battery: 74% (Good) | Speed: 18 km/h

& Verified Geotrack Waypoints Today:

- 08:54 AM: Sector 18 Market Punch-In (< 3.8m)

- 11:30 AM: Lodhi Colony Fresh Mart (Check-in Verified)

- 03:45 PM: Connaught Place Retail Hub (In Progress)

& Total Distance Traveled: 28.4 km

Automated Attendance & Payroll Engine

& Shift Regularization Workflow: Managers can approve traffic delays with

& Direct Payroll CSV Export: Standard formats compatible with RazorpayX

& Verified Allowances: Automatic computation of travel allowance based on

& Audit Logs: Every manager override is permanently saved to compliance

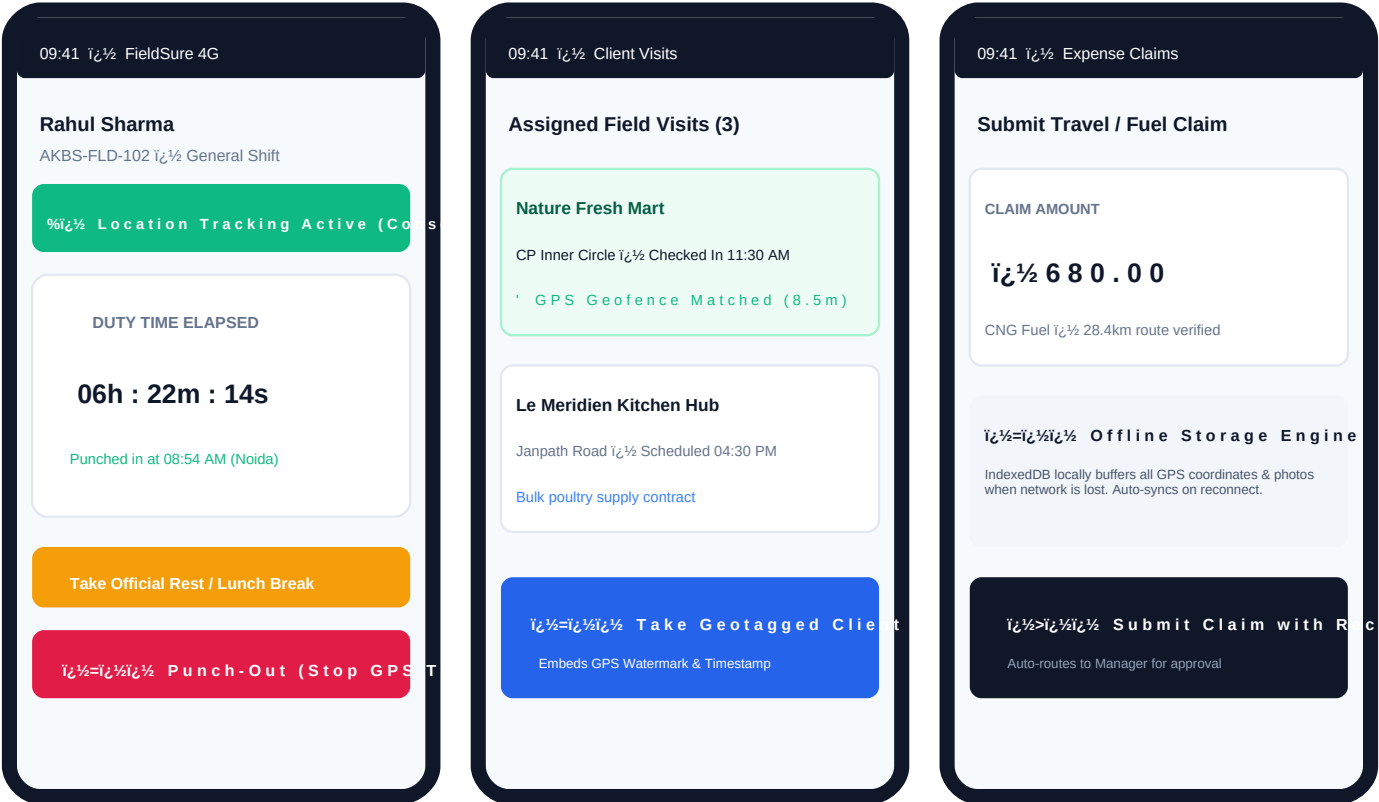

1-CLICK PAYROLL CSV EXPORT READY

Includes Net Days Present, Overtime Hours, Verified Travel Allowances, and T

Export format: CSV / Excel / JSON API.

Employee Android-First PWA Mobile Mockups

High-contrast, compact mobile experience optimized for 4G/2G field conditions with full offline caching.

Duty Punch & Timer

Geofenced Client Visits

Expense & Offline Sync

1-Tap GPS Duty Punch

Proof of Visit & Geofence

Fuel Claims & Local Cache

Progressive Web App (PWA) Architectural Advantages

- Zero App Store Friction

Installed directly from browser via Web App Manifest with service worker caching.
- Low Battery Consumption

Adaptive GPS sampling throttles interval when employee is stationary (accelerometer fused).
- Full Offline Survivability

All duty actions, breaks, and visits are buffered in IndexedDB and synchronized automatically.
- Watermarked Photo Proof

Client visit verification photos are stamped on canvas with lat/lng, address, and timestamp.

Savrdh Super-Admin SaaS Governance & Billing

Multi-tenant company provisioning, automated GST billing, seat governance, and cryptographically audited support impersonation.

Monthly SaaS MRR

₹ 63,423

+18% vs last month

Active Tenant Companies

3 Enterprises

191 Active Field Seats

Global Platform Uptime

99.98%

Zero GPS Engine Outages

GST Invoices Paid

100%

Razorpay & Cashfree API

Multi-Tenant Provisioning & Subscription Ledger

Tenant Name	Plan Tier	Active Seats	Monthly Billing (GST)	Status
AKBS Poultry Pvt Ltd	Enterprise	118 / 150	₹ 42,480 / mo	Active
NCR Field Services Ltd	Growth	54 / 80	₹ 16,225 / mo	Active
Bright Retail Network	Starter	19 / 30	₹ 4,718 / mo	14-Day Trial

Cryptographically Audited Super-Admin Impersonation Protocol

When Savrdh support engineers access a tenant account for technical troubleshooting:

1. 30-Minute Hard Time-Limit: Impersonation token expires automatically after 30 minutes without exception.

2. Mandatory Access Reason: Support engineer must specify ticket ID and authorized client contact name.

3. Immutable Audit Record: Actor IP, user agent, timestamp, and all mutations are logged to a write-only audit trail.

4. Tenant Visible Notification: Company Admin sees active support badge with 1-click session revocation.

GST Invoicing API Integration: Integrated with ClearTax and Razorpay Invoices. Generates IRN and QR code for Indian GST compliance on every monthly subscription debit.

Multi-Tenant Database Schema & Firestore Security Rules

Complete data model hierarchy and cryptographically enforced access control specifications.

Multi-Tenant Firestore Collection Hierarchy

/tenants/{tenantId}	Company metadata, subscription plan, GST details, seat allocation quota, and custom branding config.
/tenants/{tenantId}/users/{userId}	Employee profile, assigned role (admin/officer), supervisor ID, phone, and DPDP consent record.
/tenants/{tenantId}/dutySessions/{sessionId}	Duty punch-in/out timestamps, battery logs, break periods, and GPS route breadcrumb points array.
/tenants/{tenantId}/fieldVisits/{visitId}	Client geofence coordinates, verified check-in timestamp, distance delta, notes, and photo proof URL.
/tenants/{tenantId}/expenseClaims/{claimId}	Fuel/travel reimbursement claims, amount, receipt image proof, GPS distance comparison, and status.
/tenants/{tenantId}/auditLogs/{logId}	Immutable write-only security log stream recording actor ID, IP address, timestamp, and modification payload.

Firestore.rules (Tenant Isolation & Role-Based Access Control)

```
rules_version = '2';
service cloud.firestore {
  match /databases/{database}/documents {
    function isSuperAdmin() { return request.auth.token.role == 'super_admin'; }
    function isTenantUser(tenantId) { return request.auth.token.tenantId == tenantId; }
    function isCompanyAdmin(tenantId) {
      return isTenantUser(tenantId) && request.auth.token.role in ['company_admin', 'manager'];
    }
    match /tenants/{tenantId}/{document=**} {
      allow read, write: if isSuperAdmin() || isTenantUser(tenantId);
    }
  }
}
```

India Digital Personal Data Protection (DPDP) Act 2023 Compliance Matrix

- 📍 Purpose Limitation: GPS data is strictly recorded for verified duty hours, field dispatch, and client visit reimbursement.
- 📍 Data Minimization: Zero access to employee personal apps, call logs, SMS, photos outside visit uploads.
- 📍 Storage Limitation: Automated 30/60/90-day GPS purge job runs on Cloud Functions based on tenant policy.
- 📍 Right to Grievance Redressal: Employee can view complete audit logs of when and who viewed their location history.
- 📍 Consent Management: Versioned consent timestamp is cryptographically attached to every user profile record.
